LICENSE & CERTIFICATIONS:

Issued: Aug 2022

Oracle Learning Explorer (Oracle Java) - Oracle

Issued: Aug 2022

M220J: MongoDB for Java Developers - MongoDB University

Issued: Aug 2022

Programming in C and C++ - Elysium

Issued: Jan 2023

React - HackerRank

Issued: Mar 2023

IBM Business Partner Integrity Training - IBM

Issued: May 2023

Introduction to DevOps - IBM

Issued: May 2023

AWS Cloud Technical Essentials - Coursera

WORK EXPERIENCE:

AVPS Technologies Inc, Chennai (10/2022 -Present)

AVPS Technologies Inc is a prominent IT solutions and software provider known for its expertise in implementing IBM ODM solutions. The company specializes in developing comprehensive Java-based applications tailored to diverse business requirements.

- Collaborated within a dynamic team on a significant Academy project, demonstrating my skills in Java, React.js, and cloud technologies.
- Contributed to the end-to-end development of the project, showcasing my proficiency in designing, implementing, and deploying applications.
- Successfully worked on the integration of cloud services, optimizing project performance and scalability.
- Actively engaged in cross-functional teamwork, ensuring effective communication and collaboration across various project phases.
- Demonstrated a commitment to delivering high-quality solutions aligned with AVPS Technologies' reputation for excellence in IT services.
- Led the creation of compelling demo applications that effectively demonstrated the capabilities and value proposition of IBM ODM to potential clients.
- Facilitated knowledge sharing within the team, contributing to the continuous improvement of technical skills and project strategies.
- Actively participated in cross-functional discussions, leveraging my technical expertise to provide valuable insights during project planning and execution.
- Maintained a consistent focus on customer satisfaction, aligning project outcomes with AVPS Technologies' commitment to delivering top-tier IT solutions.

ACADEMIC PROJECTS:

COVID Tracker Website for Madurai

I created a COVID tracker for Madurai, featuring real-time case counts, translated content using Google Translate, live tweets, an interactive map, and a chatbot. I used HTML, CSS, and JavaScript, with APIs like data.covid19india.org for data.

Data Security Approach On Cyber Crime With Web Vulnerability

"Enhancing Web Application Security: Predicting Vulnerabilities using Support and Deep Learning on KDDCup Dataset. Employing LSTM and Random Forest, this model classifies data layer by layer, effectively detecting vulnerabilities."

PERSONAL PROJECTS:

Student Information Application

The Informations about the Students can be Added, Deleted, Edited and Viewed. The backend operation are done using Spring boot and React.js is Used for frontend .The informations are stored in Mongo DB. This Kind of application will help to manage student informations.

Portfolio - My Web Page

A professional portfolio website built using ReactJS.It displays the home page that contains the role name and educational details, project details,working experience and users can send mails through contact page.The contact page allows the users to contact the user.The main purpose of the react page is showcasing the full details of a devoloper.

PERSONAL DETAILS:

Date of Birth: 23-06-2000
